DJs & Hosting

Whatever the occasion, I turn up with a full setup and read the room all night. Weddings, functions and kids' parties each get their own approach, and the length of your DJ set is tailored to your event. Karaoke and video DJing add-ons are available.

Wedding DJ

Weekend (Fri & Sat) or weekday (Sun to Thu). Full setup included.

Function DJ

Weekend (Fri & Sat) or weekday (Sun to Thu). Full setup included.

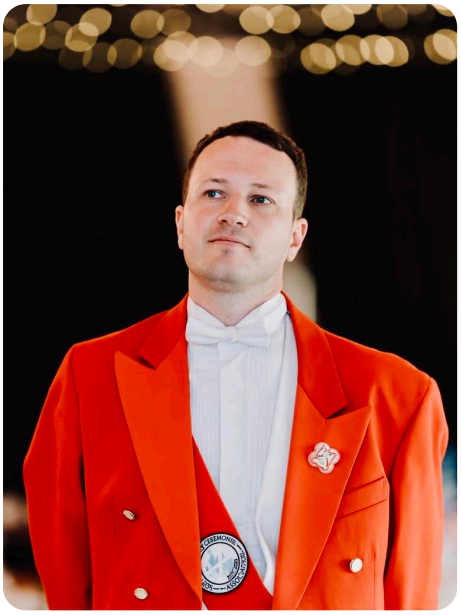

Kids' Afternoon DJ

Weekend (Fri & Sat) or weekday (Sun to Thu) afternoons. For kids' parties it's a roll-in, roll-out cart, so setup and removal are quick and easy.

Master of Ceremonies

I'm your host and compère for the whole day, from greeting your guests as they arrive until the first 3 dances are over at the reception. I take control of all the announcements and direct your guests throughout the event. When it comes to speeches and toasts, I take the pressure off the three or four people making them.

- Pre-event meeting or call to set the timeline, music and mood (serious, laid-back, fun, etc.)
- Discreet PA system for ceremony music, speeches and the wedding breakfast
- Music for the ceremony
- Background music for the drinks reception and wedding breakfast
- Wireless microphones for speeches and announcements
- All announcements, from pre-ceremony housekeeping (switch off phones etc) to introductions
- Help for the photographer with group or confetti photographs
- Calming speakers' nerves and helping during speeches (handing out gifts etc)

Cabaret Shows & Live Singing

Live at your venue, with songs from the 60s to the present. I perform a range of cabaret shows as a self-contained solo performer, with professional sound and lighting and flexible set lengths. A disco can be added. Contact me directly for a quote for your needs.
